

BT

OVERVIEW

BT is one of the world's leading communications services companies, serving the needs of customers in the UK and in 180 countries worldwide.

BT UK operate partner sales offices outside of the main corporate BT offices. BT were looking for a way to engage with these offices remotely and used **embed** to create a digital signage communication channel known internally as 'Spotlight TV'.

Since launch, BT have deployed over 80 end points into partner sites and distribute targetted content using both device and

media tags as well as nationwide content with campaign specific conditional play rules.

In offices where there are multiple screens, BT use the channel sync feature to synchronise content.

“Spotlight TV has developed into a must have method of engagement... We’ve had a great experience using embed and absolutely recommend it”

Lloyd Devy, BTLB Channel Marketing, BT
